Frontend Web Development

January 2025 – May 2025

Skifter Technology

Completed a hands-on, project-based training program in HTML, CSS, JavaScript, and React, gaining practical experience by building real-world applications and following modern industry standards.

PROJECTS

SKYCAST — React, Vite, CSS

GitHub Repo

- Built a sleek weather application that displays real-time weather data such as city, temperature, and icons using the OpenWeatherMap API.
- Designed a fully responsive UI with smooth refresh functionality for an enhanced user experience.
- **Tools Used:** React, Vite, CSS, OpenWeatherMap API
- **Live Demo:** weatherzone-sky.netlify.app

MOVIEFLIX — HTML, CSS, JavaScript

GitHub Repo

- Created a responsive movie browsing platform that fetches trending movies using the TMDB API, featuring real-time search, posters, and ratings.
- Employed clean layout and accessible design principles to ensure usability across devices.
- **Tools Used:** HTML, CSS, JavaScript, TMDB API
- **Live Demo:** movieflix-mythily.netlify.app
